

About Us

Transforming Organizations with Talent and Technology

TECKpert connects public sector organizations with the tech talent, services, and technologies needed to address modern challenges and drive secure operational efficiency. Our expertise spans IT staff augmentation, software modernization, and digital transformation, providing agencies with the tools to enhance their capabilities, secure critical infrastructure, and achieve mission-critical objectives. By integrating innovative technologies around AI, we help government agencies modernize workflows, improve efficiency, and secure their infrastructure and applications while navigating the complexities of today's digital landscape.

Services

Where Modernization and Innovation Meet to Drive Mission Success

IT Staff Augmentation

At TECKpert, we recognize that securing the right talent is essential for government agencies to achieve their mission-critical objectives. Through our IT Staff Augmentation services, we streamline the process of recruiting, vetting, and managing skilled IT professionals for short and long-term projects.

Municipal ERP Total Transformation

Our Solution provides local governments with comprehensive support from initial assessment to final implementation of ERP systems. Tailored specifically for municipal needs, our services ensure seamless integration, modernization, and optimization of your ERP and departmental applications.

Cybersecurity for Local Government

TECKpert's CEPS™ service is tailored to meet the unique cybersecurity needs of local governments. Our service provides a comprehensive approach to cybersecurity, offering education, planning, and support to enhance cyber resilience and safeguard sensitive information.

Fractional CIO/CTO Services

When your organization is in transition or requires leadership on a short-term or interim basis, TECKpert provides Fractional Leadership solutions tailored to your specific needs. Our Fractional Services cover a range of key leadership roles in technology, cybersecurity, and program management.

Why TECKpert?

We utilize 100% **US-based talent** for all our projects ensuring high-quality, dependable, and secure services.

TECKpert employs **agile methodologies**, allowing us to be flexible and responsive to project requirements.

We take a **client-centric** approach to prioritize our clients' needs, goals, and requirements to deliver tailored solutions.

We have established strong partnerships with **leading technology** providers, giving us access to the latest tools and platforms.

Key Achievements

Successfully delivering **IT Staff Augmentation** services across multiple contracts for state and local agencies in Florida, with a combined contract ceiling exceeding \$300 million.

Led the assessment and implementation of the design for the **Digital Transformation** for two Florida municipalities.

Provided **Software DevOps** for local Florida county using **Microsoft PowerApps**, Power Automate, and SharePoint to streamline workflows and enhance team collaboration.

Built a web services application framework using AWS (Cognito, RDS, Lambda) with NodeJS, React, and C#, providing **DevSecOps** for a private firm's public facing internet portal.

Created an **AI** tool for internal software used to source and match talent to client requirements.
